English tests of varying difficulty are given to ALL non-English speaking students seeking admission to BIS to determine their level of English proficiency.

Students recommended to take various ESL courses must undertake them to ensure better standing in the regular curriculum of the school. ESL and other special English courses are given throughout the year.

BIS ENGLISH PROGRAM

Preschool and Levels 1, 2, and 3
Non-English speaking students at these levels are mainstreamed in all subjects. The teaching of English basic communication skills is integrated in all subjects.

Levels 4, 5, and 6
Content-based instruction in English thru pull-out classes is required. Minimum competencies in English language development, content area and social skills are expected for the child to exhibit at the end of the curriculum year.

Level 7, 8, 9 and 10
Content-based instruction in English is required incorporating the skills of listening, speaking, reading and writing. Students in each level are grouped according to their need and preparedness as reflected in their scores on the Placement Test, given before or at the start of the academic year. The English groupings are as follows:

- **Beginners** - Focuses on Basic Grammar with activities in Listening, Speaking, Reading, and Writing
- **Transitional** - Literature and English Communication
- **Regular** - With 2 English subjects: English-Regular and English-Specialized

Grade School and High School pull-out classes in English serve a ceiling grade which progresses every quarter. Students who shortfall in the expected competencies will be given remedial classes to cope with the requirements of the level.

OTHER REQUIREMENT FOR FOREIGN STUDENTS

Foreign students from level 4 to 10 are required to take special Filipino subjects. These classes are scheduled during the regular BIS class hours. Competent teachers for Filipino are pooled to teach basic lessons in the subject.

Furthermore, foreign students admitted to Levels 8, 9 and 10 are to take Philippine History and Filipino I as mandated by DepEd.

METHODOLOGY AND EXPERIENCES

*Brain-Based Learning*

BIS upholds the principles of Brain-based learning that any child can learn anything given the right stimulation, challenge and effective teacher thus, each learning area is offered in a stimulating and challenging environment that helps students to engage in active learning and allows them to participate in a diverse variety of meaningful experiences and activities.

*Social Emotional Learning (SEL)*

SEL is the systematic classroom teaching of Emotional Intelligence. BIS adds programs to the regular school day, a curriculum for handling life: improving self-awareness and confidence, managing disturbing emotions and impulses, increasing empathy and cooperation.

When social and emotional skills are taught and mastered, they help children succeed not just in school, but also in all avenues of life. Numerous studies have found that young people who possess these social and emotional skills are in fact happier, more confident, and more capable as students, family members, friends and workers.
STUDENT ACTIVITIES

To achieve BIS vision for a balanced and holistic formation and development of learners as total persons, the students are required to involve themselves in a wide-array of co-curricular activities and extra-curricular..

STUDENT ORGANIZATION

Active participation in student organizations is an important venue for honing the talents abilities and leadership potentials of the students of BIS. As such, membership and participation in a student organization is required from Level 1 to Level 10.

CELEBRATIONS AND EVENTS

To deepen and/or develop the awareness of different cultural heritage and influences, the students are encouraged to participate actively in different multicultural celebrations such as: Acquaintance Party, Filipino Language Month, Mid-Autumn Festival, Family Day and Sports Festival, United Nations Day, Halloween, English Month, Christmas, Math & Science Week, Lunar New Year, etc.

Learning in BIS is not confined within its four nooks. The school sees to it that the learners undertake field trips to different places like theatres, historical sites, museums, zoos, botanical gardens, etc.

The value of sharing is inculcated in the minds of all the BIS students. The students are encouraged to extend assistance to needy people such as the indigents and victims of calamities thru fund drives, solicitation of goods and clothing, old newspaper campaigns, and even actual distribution.

Finally BIS, highly affirms the spiritual formation of the student through the administration of the Sacraments of the Holy Eucharist and Confirmation for the Catholics, annual recollection and/or retreat, and other related spiritual activities.

GRADING SYSTEM

Academics:

Each student’s performance is measured against a well-defined level of achievements. The grades represent the degree to which the student has understood the concepts, has acquired the skills, and has developed the proper attitudes and values.

The grades for the academic program are computed according to the required norms of Benedictine International School in consonance with the implementing guidelines of the Department of Education and the set standards of organization for international schools.

1. There are 4 grading periods.
2. The scholastic standard or minimum requirement for every learning area is 70%, which means that for every 10 points, a student must get at least 7 points in order to pass.
3. The quarterly grade in a given learning is based on the class standing mark and the quarterly examination mark. 70% is from the overall class standing mark and 30% is from the quarterly examination mark.

4. For any learning area that does not have quarterly examination, seventy percent (70%) is from the overall class standing mark and thirty percent (30%) is from a major performance output.

5. The class standing mark is based on the student’s performance in quizzes, long tests, seatwork, recitation & participation, homework, research papers, projects, experiments and the like. The components as well as the corresponding weights vary according to learning areas.

6. After transmutation of performance, the lowest passing grade in any given learning area is 75. The lowest grade a student can get is 65 and the highest is 100 except for classes / instances when a ceiling grade is imposed.

7. The Non-numerical Rating Scheme or letter grades are used in the report cards in order to encourage students, parents and teachers to focus on the meaning of a grade as quality learning that has been achieved rather than the numerical value.

8. The marking codes are as follows

<table>
<thead>
<tr>
<th>Numerical Grades</th>
<th>Letter Grades</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99-100</td>
<td>A</td>
<td>Excellent</td>

</tbody>
</table>

9. The annual grade for each learning area is computed using the Averaging Method, which means the grades from the first quarter to the fourth quarter have equal weights.

QUARTERLY EXAMINATIONS

1. Quarterly Examinations should be taken according to schedule. If the schedule of the examinations is interrupted by unexpected cancellation of classes, the examinations scheduled on the day classes are called off, are automatically reset on the day classes resume.

Late quarterly examinations are given to students on a scheduled day and time only upon presentation of valid excuse letters from their parents'/guardians or a medical certificate if the absence is due to illness. The parents/guardians are informed of the raw scores their child earned in the examinations. The parents / guardians may request to see the examination papers of their respective child/ ward. if and when there are questions regarding the student’s grades. However, this must be done in school.
4. Parent-Teacher Conferences (PTC) – These conferences are held twice a quarter to give all parents / guardians the opportunity to discuss the academic as well as the behavioral performance of the child/ward. The first conference is held before the quarterly examinations and the second conference is during the distribution of report cards.

5. Report Cards - The report card is issued ONLY to the parent / guardian of the student at the end of every quarter. This is intended to give the student and parent / guardian information about the child’s academic performance and character development for the past quarter.

*The school considers tampering with the report card as a very serious offense.
